

# Join the **UW Medicine Palliative Care Team** and **be part of something bigger.**

Our Palliative Care Team focuses on clinical care, research and education that improves life for patients. We provide exceptional care focused on relieving symptoms, maximizing the quality of life and ensuring care that reflects patients' goals.

With a generous \$10 million gift from the Cambia Health Foundation, the UW Medicine program, now renamed **Cambia Palliative Care Center of Excellence**, will be a catalyst for growth and innovation in palliative medicine. According to the Cambia Health Foundation, UW Medicine has quickly become a national leader for best practices in palliative care education, metrics and implementation. As we grow, we are seeking team members to help us lead the way. Recruitments are underway or planned for:

- Physicians
- Nurses and Nurse Coordinators
- APPs
- Social Workers
- ARNPs
- Spiritual Care Providers

You will work with an interdisciplinary team of nurses, social workers, chaplains, pharmacists, advanced practice providers and physicians to meet the complex medical, emotional and spiritual needs of seriously ill patients and their loved ones. Directed by **J. Randall Curtis, M.D., M.P.H.**, the Cambia Palliative Care Center of Excellence is dedicated to seeing that palliative care has an integral and prominent role in health care—regionally, nationally and internationally.

**Working at UW Medicine is not just a job, it's a calling.** Our mission is improving the health of the public, and we do that worldwide, from the neighborhoods of Seattle to remote areas of Africa.

Our professionals provide patient-centered care at our two leading academic medical centers, **Harborview Medical Center** and **University of Washington Medical Center**, two community medical centers, **Northwest Hospital** and **Valley Medical Center**, and our many hospital- and community-based clinics. Our researchers are leading scientists whose medical discoveries set the standard of care across the globe. Our faculty teach the next generation of innovative physicians and health care professionals.

Why Seattle? Breathtaking scenery, easy access to the great outdoors and great city life, Seattleites enjoy a blend of adventurous pursuits to more local interests. With world-class, innovative businesses and a vibrant arts community, Seattle continues to draw many who find rewarding careers and an unmatched lifestyle.
